Mr. Campbell was not called to Farmville, but to Louisville, Ky., and he declined it, notwithstanding that he was offered \$800 more per annum than he is now receiving. The Methodists have closed their protracted meeting, and admitted twenty-two persons to church membership last Sunday.

The extensive Rarig Machine-Works, which have been idle for some time, were recently placed in the hands of a receiver and commissioners to sell. A wealthy from man has been here for some days examining the plant with a view to purchasing it. He has just made an offer to the commission for its purchase straightout, and if the sale is made he will start it in operation with a large force without delay. named should strike terror to any man or woman. A sudden chill means the beginning of pneumonia; aches and pains throughout the body are the first symptoms. It is necessary to bring about a reaction at once. How, then, is the best way of bringing about a reaction? Ast any physician and he will tell you to use pure whistey. No matter how prejudiced any one may be, pure whistey at such a time is a necessity; but unfortunately there are few pure whistey in the world, and in fact there is but one that has received the unqualified endorsement of physicians, chemists, and the highest authorties, and that is Duffy's Pure Mait. This remarkable whiskey, which is sold by all first-class druggists and grocers, will about-tay check the first approach of pneumonia, while at the same time it is certain to build up the wasted system. It deserves to be kept in every household, not only to be used in cases of emergency, but to assist in prolonging life and bringing health and happiness.
